**RE:** Goals and Objectives for Communicable Disease Program

---

Attached you will find program specific goals and objectives for Communicable Disease programs. These goals and objectives, revised from Health Officers memo #02-020, have been developed by the various Divisions within the Epidemiology and Disease Control Program. They are being provided to assist you in preparing your communicable disease program plans for FY 2004.

It is our expectation that these standard goals and objectives will be the framework upon which local plans addressing your local needs will be developed and upon which the EDCP site reviews will be based. Please feel free to contact the appropriate Division directly if you have any questions regarding the attached goals, objectives, and measures or if you need to establish county-specific objectives and measures for FY 2004.

In the event that we receive new expectations from the Centers for Disease Control and Prevention (CDC) or other funding agencies, we will pass that information along to you as soon as possible.
